

KEEP **FATS** **OILS** AND **GREASE** OUT OF YOUR DRAINS! PREVENT THE CLOG, TRASH THE **FOG**

Food/Meat Scraps
Salad Dressings
Shortening
Sauces
Grease
Butter
Gravy
Lard

Causes Property Damage
Harms the Environment
Contaminates Water
Health Hazard
Clogs Drains
Blockages
Flooding

What's **FOG**? Why Care?

FOG stands for **Fats**, **Oils** and **Grease**. These three substances should be disposed of carefully, as they can form into large, thick grease balls that create sewer system blockages. Blockages and overflows caused by **FOG** can lead to health hazards and property damage, threaten the environment, cause slow drainage, and disrupt your home.

Step 1

Scrape It

Let Oil Cool,
Wipe or Scrape

Step 2

Can It

Pour Oil in
Covered Containers

Step 3

Trash It

Trash all
Covered Containers
